

How to Use

Follow these simple steps to convert your images to a PDF file:

1. Step 1: Select Images

Click on the "**Choose Files**" button and select one or multiple images.

Supported formats: JPG, PNG, WEBP, GIF, BMP.

2. Step 2: Adjust Settings

Choose the desired **Orientation** (**Portrait/Landscape**), **Page Size (A4/Letter)**, and **Compression** level if needed.

3. Step 3: Convert Images

Click on the "**Convert to PDF**" button.

The tool will automatically process and convert the images into a PDF file.

4. Step 4: Download PDF

Once the PDF is ready, it will be **automatically downloaded** to your device.
